Residents address town board:

Sara Esker mentioned that the Attorney has all signed letters when they reviewed the correspondence between Sara's husband and the TOG Clerk.

Sara also asked for the phaser report from 2018 to current.

Sara asked for a follow-up on the traffic counter that was set up on Twilight Road.

- Trevor set up the traffic counter at the South end of Twilight Road. He checked it after one week and it failed. He then set it up at the North end, tested it, it was reading as it should. When Trevor went to check it, it had failed again. He took the counter to MC, and it was working again. Trevor will set the counter out again.

Dust Buster:

- Recommendation by resident to discuss it at the May 2027 meeting
- Kafka's supplier cannot get the calcium chloride, but can get magnesium chloride. The cost for the magnesium chloride is .05 less than the calcium chloride.
- Town orders one truck load and the cost will be about \$7500.00
- Still planning to apply this year

5-year road plan:

- Suggested to add why we chose these roads to the plan
- Will this be made public? No because this is just a plan the TOG Board members use.

Levy Increase:

- When do we plan to do a levy increase? If we decide to do it now we would have to plan quick as it would be before the November budget meeting
- Can we start a levy increase? Past meeting was a no because of reevaluation. School budget, and still having a garage payment. We still have 3.5 payments left on the garage with the final payment being in 2030
